ANNEXURE C TO THE DIRECTORS' REPORT Management Discussion and Analysis

Overview

The objective of this report is to convey the Management's perspective on the external environment and forging industry, as well as strategy, operating and financial performance, material developments in human resources and industrial relations, risks and opportunities and internal control systems and their adequacy in the Company during the FY 2025-26.

This should be read in conjunctions with the Company's financial statements, the schedules and notes thereto and other information included elsewhere in the Integrated Report. The Company's financial statements have been prepared in accordance with Indian Accounting Standards ('Ind AS') complying with the requirements of the Companies Act, 2013 as amended and regulations issued by the Securities and Exchange Board of India ('SEBI') from time to time.

Global Economy

In FY26, the global economy experienced moderate growth, influenced by persistent inflationary pressures, tight monetary policies in developed markets, ongoing geopolitical uncertainties, and conflicts in the Middle East toward the end of the financial year. These developments contributed to volatility in global oil and energy prices, leading to higher input costs for businesses and inflationary pressures in energy importing economies. Amid these challenges, global growth remained resilient at ~ 3.3%.

The latest *World Economic Outlook* reports slowing global growth and renewed inflationary pressures. Policies need to be agile, carefully manage the trade-offs involved in ramping up defense spending, and lay the foundation for a sustained recovery.

Global growth is projected at 3.2 percent for 2027, revised slightly up since the October 2025 World Economic Outlook. Technology investment, fiscal and monetary support, accommodative financial conditions, and private sector adaptability offset trade policy shifts. Global inflation is expected to fall, but US inflation will return to target more gradually. Key downside risks are re-evaluation of technology expectations and escalation of geopolitical tensions. Policymakers should restore fiscal buffers, preserve price and financial stability, reduce uncertainty, and implement structural reforms.

Indian Economy

India's economy hit its highest growth in three years, with FY26 Gross Domestic Product (GDP) expanding 7.7 percent and Gross Value Added (GVA) at 7.9 percent, surpassing both FY24 and FY25, highlighting the economy's strengthening momentum heading into an uncertain FY27 due to the lingering effects of the war in West . Source: Press Information Bureau (PIB)

Private consumption and capital formation both hit a three year high in FY26 at 7.7 percent and 8.2 percent respectively, signalling a more balanced growth story even as government spending eased slightly from the previous year. Gross fixed capital formation (or investment) maintained its share at roughly 32 percent of GDP for the third straight year, while the import share declined to 23.7 percent. – Forbes India.

While there are challenges to the near-term outlook, India's growth remains stronger than that of other major economies . While global trade headwinds persist, growth is expected to continue at a measured pace, aided by policy reforms and a supportive interest-rate environment. The country is seeking to navigate rising trade uncertainty through gradual market diversification and the pursuit of new trade partnerships.

FY26 for the automotive industry evolved as a “tale of two halves”. In the first half of the year, demand relatively muted, consumer sentiment remained cautious, and growth was largely supported by underlying demand trends and festive build-up. In September 2025, the rollout of GST 2.0 marked a structural shift, simplifying tax slabs and reducing GST on small cars and compact SUVs to 18% while eliminating cess. This led to lower prices, improved affordability, and a sharp revival in demand, especially during the festive season and thereafter. The second half witnessed a strong rebound in volumes and dealer retail momentum, clearly shifting the trajectory of the industry. As a result, the Passenger Vehicle (PV) segment recorded sales of ~47 lakh units in FY26, reflecting about 8% year-on-year growth. The PV market also saw continued premiumization, with utility vehicles

EL FORGE LIMITED

accounting for over 60% of total sales, indicating a structural shift in consumer preferences. Demand remained relatively strong in mid and premium segments, while entry level vehicles faced affordability challenges, particularly in the earlier part of the year before GST-led price corrections. Government initiatives such as the Production Linked Incentive (PLI) scheme and PM E – Drive (formerly FAME scheme) continued to support investments in advanced automotive technologies and electric mobility. Electric passenger vehicles maintained strong growth momentum, with industry volumes nearing ~2 lakh units and penetration levels at ~4% of total PV sales in FY26, supported by policy incentives, new launches, and expansion of charging infrastructure. 12.0% 10.0% 8.0% 7.6% 6.0%

Outlook

The Indian economy is projecting a measured but robust real GDP growth of 6.6% to 7.0% in 2026. While the economy is moderating from last year's historic highs, driven by ongoing global tariff uncertainties and Middle East geopolitical shocks, it remains one of the fastest-growing major economies globally.

Headline inflation is hovering comfortably near the Reserve Bank of India's (RBI) target at around 4%. Against the backdrop of turbulent global environment, the Indian economy is expected to continue to demonstrate resilience in FY26 supported by robust sectoral performance and improving consumption trends. The RBI projects 6.5% growth in India's real GDP in FY26 supported by strong momentum in domestic demand amid cooling food inflation, tax benefits and lower borrowing costs.

External factors such as rising US tariffs and global trade pushback will be the headwinds. The uncertain and volatile global environment could further defer the much-anticipated revival in private capex

The **India Development Update** says that despite significant downside risks stemming from the conflict, the economy's strong macroeconomic fundamentals and policy buffers offer some insulation. Substantial foreign reserves, low inflation, predominantly rupee-denominated public debt, a healthy financial sector, and trade diversification efforts play a major role in providing resilience from external headwinds.

The Vikas Bharat Scheme of the Govt. of India ensures investment and creation of jobs at scale in priority sectors like energy and infrastructure, manufacturing, tourism, health care and agribusiness,

Indian Auto Industry

India's auto components industry is a rapidly expanding global powerhouse, currently contributing 2.3% to the national GDP and accounting for about 35% of the manufacturing GDP. The sector achieved a turnover exceeding Rs. 6.73 lakh crore (US\$ 88.20 billion) and is heavily bolstered by massive domestic demand and a booming aftermarket.

Opportunities in Auto Industry are expanding in India as

- a) focus shifting on electric cars to reduce emissions.
- b) Government aims to transform India into an R&D hub.
- c) India could be a leader in shared mobility by 2030, providing opportunities for electric and autonomous vehicles.
- d) The electric vehicles industry is likely to touch Rs. 20,00,000 crore (US\$ 234 billion) and will create around five crore jobs by 2030.
- e) India offers 10-25% operational cost savings for auto firms compared to Europe and Latin America.
- f) The automobile sector attracted Rs. 2,64,456 crore (US\$ 39.7 billion) in equity FDI Inflow between April 2000 - December 2025.
- g) India is set to become the largest EV market by 2030, with an investment potential exceeding US\$ 200 billion over the next five years.
- h) The PLI scheme for automobiles and auto components received Rs. 2,818.9 crore (US\$ 325.6 million) in FY26.
- i) Automotive Mission Plan 2016-26 is a mutual initiative by the Government of India and the Indian automotive industry to lay down the roadmap for the development of the industry.

Opportunities & Threats

- The government has developed numerous programs to help manufacturers, such as the Production Linked Incentive (PLI) Scheme, which is a cornerstone of the government's endeavour to achieve an Atmanirbhar Bharat. The scheme's goal is to stimulate domestic manufacturing in strategic and emerging areas, improve the cost competitiveness of domestically-made goods, and increase local capacity and economies of scale.
- Domestic producers are given a preference in the defence sector which will provide new opportunities to the industry.

A faster shift to electric vehicles, will have an impact on our business. • Several new companies are entering the market, and existing rivals in adjacent product categories are also increasing their offerings. Under utilisation of the installed capacity resulting in increasing fixed costs of the company, growing cost of key raw materials may impact revenues and profitability of the company.

The key risks impacting its business include economic, foreign exchange, raw material, technology, funding, talent and cyber security risks. The Company has undertaken measures to mitigate these risks.

Commodity Price Risk

The Steel prices have increased substantially during the year and continues to be on the upward spiral. The increases are compensated from customers. Other input costs are also increasing and the company deals with obtaining compensation from customers on a case to case basis.

Undertaken impactful actions to make its quality control process robust and reduce cost of production. Annexure-01 of Responsibilities for Audit of Standalone Financial Statement

[Referred in paragraph 08(02) of the aforesaid Report]

As part of an audit in accordance with Standards on Auditing (SAs), I exercise professional judgment and maintain professional scepticism throughout the audit. I also:

01. Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
02. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
03. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
04. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my audit report. However, future events or conditions may cause the Company to cease to continue as a going concern.
05. Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
06. I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.
07. I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

Annexure-01 of Responsibilities for Audit of Standalone Financial Statement

[Referred in paragraph 08(02) of the aforesaid Report]

As part of an audit in accordance with Standards on Auditing (SAs), I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

01. Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
02. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
03. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
04. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in the auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my audit report. However, future events or conditions may cause the Company to cease to continue as a going concern.
05. Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
06. I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.
07. I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

03. Auditor’s Responsibility

- (01) My responsibility is to express an opinion on the Company's internal financial controls with reference to these standalone Ind AS financial statements based on my audit. Annexure-01 of Responsibilities for Audit of Standalone Financial Statement

[Referred in paragraph 08(02) of the aforesaid Report]

As part of an audit in accordance with Standards on Auditing (SAs), I exercise professional judgment and maintain professional scepticism throughout the audit. I also:

01. Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
02. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
03. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
04. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. [Referred in paragraph 09(02)(f) of the aforesaid Report]

07. Financial Statements, period, Name etc.

I have audited the internal financial controls with reference to standalone Ind AS financial statements of El Forge Limited (“the Company”) as of March 31, 2026 in conjunction with my audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

08. Management’s Responsibility for Internal Financial Controls

The Company’s Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India (the “ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (“the Act”).

09. Auditor’s Responsibility

- (04) My responsibility is to express an opinion on the Company's internal financial controls with reference to these standalone Ind AS financial statements based on my audit. I conducted my audit in accordance with the Guidance Note and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these standalone Ind AS financial statements was established and maintained and if such controls operated effectively in all material respects.
- (05) My audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these standalone Ind AS financial statements and their operating effectiveness. My audit of internal financial controls with reference to standalone Ind AS financial statements included obtaining an understanding of internal financial controls with reference to these standalone Ind AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
- (06) I believe that the audit evidence, I have obtained, is sufficient and appropriate to provide a basis for my audit opinion on the Company’s internal financial controls with reference to these standalone Ind AS financial statements.

EL FORGE LIMITED

Annexure 03 of Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”) to the Independent Auditor’s Report of even date on the Standalone Ind AS financial statements of El Forge Limited

10. Meaning of Internal Financial Controls with Reference to these Standalone Ind AS Financial Statements

A company's internal financial controls with reference to standalone Ind AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to standalone Ind AS financial statements includes those policies and procedures that

- (04) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (05) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (06) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone Ind AS financial statements.

11. Inherent Limitations of Internal Financial Controls with Reference to Standalone Ind AS Financial Statements

Because of the inherent limitations of internal financial controls with reference to standalone Ind AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone Ind AS financial statements to future periods are subject to the risk that the internal financial control with reference to standalone Ind AS financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

12. Opinion

In my opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone Ind AS financial statements and such internal financial controls with reference to standalone Ind AS financial statements were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

- (01) Property, Plant and Equipment is stated at cost less accumulated depreciation and where applicable accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials, direct labour and any other costs directly attributable to bringing the asset to a working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located. Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment.

Notes No. 4.00, relating to Material Accounting Policies, forming an integral part thereof

04.03. Loans and Borrowings

- 04.03.01. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the effective interest rate (hereinafter referred as EIR) method. Gains and losses are recognized in statement of profit and loss when the liabilities are derecognized as well as through the EIR amortization process.
- 04.03.02. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

04.04. Borrowing Costs

- 04.04.01. Borrowing costs are interest and other costs (including exchange difference relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Interest expense is recognized using effective interest method.
- 04.04.02. Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of that asset. Other borrowing costs are recognized as expenses in the period in which they are incurred. To the extent the Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the Company determines the amount of borrowings costs eligible for capitalization by applying a capitalization rate to the expenditure incurred on such asset. The capitalization rate is determined based on the weighted average of borrowing costs applicable to the borrowings of the Company which are outstanding during the period, other than borrowings made specifically towards purchase of the qualifying asset. The amount of borrowing costs that the Company capitalizes during a period does not exceed the amount of borrowing costs incurred during that period.

04.05. Inventories

- 04.05.01. Inventories are valued at the lower of cost and net realizable value except scrap and by products which are valued at net realizable value. - 04.05.03. Finished goods and work in progress: Cost includes direct labour and an appropriate share of fixed and variable production overheads. Fixed production overheads are allocated on the basis of normal capacity of production facilities. Cost is determined on moving weighted average basis.

EL FORGE LIMITED

Notes to the Ind-AS financial statements for the year ended March 31, 2026 forming an integral part thereof.

Notes No. 4.00, relating to Material Accounting Policies, forming an integral part thereof

- (01) Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.
- (02) Obsolete inventories are identified and written down to net realizable value. Slow moving and defective inventories are identified and provided to net realizable value.

04.06. Income Taxes

- 04.06.01. Income tax expense comprises current and deferred tax. Income tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in equity or in other comprehensive income. Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date. Minimum Alternate Tax (MAT) is accounted as current tax when the Company is subjected to such provisions of the Income Tax Act. However, credit of such MAT paid is available when the Company is subjected to tax as per normal provisions in the future. Credit on account of MAT is recognized as an asset based on the management's estimate of its recoverability in the future.
- 04.06.02. Deferred tax is recognized using the balance sheet method, providing for temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for the following temporary differences:
 - (01) the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
 - (02) differences relating to investments in subsidiaries and associates to the extent that it is probable that they will not reverse in the foreseeable future; and
 - (03) Arising due to taxable temporary differences arising on the initial recognition of goodwill, as the same is not deductible for tax purposes.
- 04.06.03. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.
- 04.06.04. A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

EL FORGE LIMITED

Notes to the Ind-AS financial statements for the year ended March 31, 2026 forming an integral part thereof.

Notes No. 4.00, relating to Material Accounting Policies, forming an integral part thereof

04.06.05. Deferred taxation arising on investments in subsidiaries and associates is recognized except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred taxation on temporary differences arising out of undistributed earnings of the equity method accounted investee is recorded based on the management's intention. If the intention is to realize the undistributed earnings through sale, deferred tax is measured at the capital gains tax rates that are expected to be applied to temporary differences when they reverse. However, when the intention is to realize the undistributed earnings through dividend, the company's share of the income and expenses of the equity method accounted investee is recorded in the statement of income, after considering any taxes on dividend payable by the equity method accounted investee and no deferred tax is set up in the books as the tax liability is not with the company.

04.07. Impairment of non-financial assets

04.07.01. The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists. The following intangible assets are tested for impairment each financial year even if there is no indication that the asset is impaired:

04.07.02. An intangible asset that is not yet available for use; and (b) an intangible asset that is amortised over a period exceeding ten years from the date when the asset is available for use.

04.07.03. If the carrying amount of the assets exceeds the estimated recoverable amount, impairment is recognised for such excess amount. The impairment loss is recognised as an expense in the Statement of Profit and Loss, unless the asset is carried at revalued amount, in which case any impairment loss of the revalued asset is treated as a revaluation decrease to the extent a revaluation reserve is available for that asset.

04.07.04. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

04.08. Reversal of impairment loss

When there is indication that an impairment loss recognised for an asset (other than a revalued asset) in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss, to the extent the amount was previously charged to the Statement of Profit and Loss. In case of revalued assets such reversal is not recognised.

04.09. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

EL FORGE LIMITED

Notes to the Ind-AS financial statements for the year ended March 31, 2026 forming an integral part thereof.

Notes No. 4.00, relating to Material Accounting Policies, forming an integral part thereof

04.10. Provisions

- 04.10.01. Provisions are recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.
- 04.10.02. A provision for onerous contract is recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognises any impairment loss on the assets associated with that contract.

04.11. Employee benefit schemes

04.11.01. Short-term employee benefits

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, performance incentives and compensated absences which are expected to occur in next twelve months. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services is recognized as an expense as the related service is rendered by employees.

04.11.02. Compensated absences:

Compensated absences accruing to employees and which can be carried to future periods but where there are restrictions on availment or encashment or where the availment or encashment is not expected to occur wholly in the next twelve months, the liability on account of the benefit is determined actuarially using the projected unit credit method.

04.11.03. Post-employment benefits

(01) Defined contribution plan

Retirement benefits, in form of superannuation, are a defined contribution scheme. The Company has no obligation, other than the contribution payable to the superannuation fund. The Company recognizes contribution payable to the superannuation scheme as expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to a reduction in future payment or a cash refund.

EL FORGE LIMITED

Notes to the Ind-AS financial statements for the year ended March 31, 2026 forming an integral part thereof.

Notes No. 4.00, relating to Material Accounting Policies, forming an integral part thereof

(02) Defined benefit plans – Gratuity and Provident fund

(a) Gratuity

The Company has a defined benefit plan (the “Gratuity Plan”). The Gratuity Plan provides a lump sum payment to employees who have completed five years or more of service at retirement, disability or termination of employment, being an amount based on the respective employee’s last drawn salary and the number of years of employment with the Company.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets if any. This cost is included in employee benefit expense in the statement of profit and loss. The liability or asset recognised in the balance sheet in respect of gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets if any. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method. Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income and are never reclassified to profit or loss. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the statement of profit and loss as past service cost.

(b) Provident Fund

Eligible employees of the Company receive benefits from a provident fund, which is a defined benefit plan. Both the eligible employee and the Company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary. The Company contributes a portion to the Govt. Provident Fund Trust. The trust invests in specific designated instruments as permitted by Indian law. The remaining portion is contributed to the Government administered pension fund. The rate at which the annual interest is payable to the beneficiaries by the trust is administered by the Government.

(c) Termination benefits

Termination benefits are payable when employment is terminated by the Company before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The Company recognises termination benefits at the earlier of the following dates: (a) when the Company can no longer withdraw the offer of those benefits; and (b) when the Company recognises costs for a restructuring that is within the scope of Ind AS 37 and involves the payment of termination benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to present value.

Notes No. 4.00, relating to Material Accounting Policies, forming an integral part thereof

04.12. Earnings per share

The Company presents basic and diluted earnings per share ("EPS") data for its equity shares. Basic EPS is calculated by dividing the profit and loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. Diluted EPS is determined by adjusting the profit and loss attributable to equity shareholders and the weighted average number of equity shares outstanding for the effects of all dilutive potential equity shares.

04.13. Foreign currency transactions

04.13.01. Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rate prevailing at the date of transaction.

04.13.02. Measurement of foreign currency items at the balance sheet date

04.13.03. Foreign currency monetary assets and liabilities denominated in foreign currencies are translated at the functional currency at the exchange rate prevailing at the reporting date.

(01) Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

(02) Exchange differences arising on settlement or translation of monetary items are recognized as income or expense in the period in which they arise with the exception of exchange differences on gain or loss arising on translation of non-monetary items measured at fair value which is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or loss, respectively).

04.14. Cash Flow Statement
